The War At a Glance

PRESSING of the general offensive movement by the entente allies on the western front has resulted in further progress for them in the Artois region in northern France. Successes in this sector, where the fight for the important town of Lens, with its radiating railways, is being waged, were won by means of hand grenade attacks, according to today's statement by the Pals war office.

In the Champagne district, where the French have made notable advances since last Saturday when the great forward movement began, German counter attacks were checked near Maison de Champagne, the official statement from the French war office announces.

Violent bombardment of French trenches north of the Aisne near Soupir is reported, the Germans, however, making no infantry attack.

German Checked in East.—On the eastern front the Teutonic progress is slower in most sectors and has been checked altogether in others, according to the latest reports from Petrograd. Field marshal von Hindenburg's forces have made little headway against Devinska in Volynia, the Russians are fighting hard, but so far unsuccessfully, to regain possession of the fortress of Lutsk.

Bulgarian Clashes Reported.—Reports have been received in Italy that the Bulgarians are entrenching all along the Serbian frontier, protecting the entanglements with barbed wire entanglements and that clashes between Bulgarians and Serbians on the border already have occurred.

Varying Reports About Bulgaria.—Vienna hears that premier Radakoff of Bulgaria is to visit Berlin in the near future. Some reports state that sentiment in Bulgaria in favor of Russia is increasing and that king Ferdinand is wavering in his attitude.

Sailing Ship Is Sunk.—London reports the sinking of the sailing vessel Helen Biron, presumably by a submarine.

ALGER ATTACK PROVES FAILURE

Germans Assert the Surprise Did Not Prove Effective Against Them.

Amsterdam, Holland, Sept. 30.—(Via London, Eng., Oct. 1.)—The correspondent of the Cologne Gazette in Champagne sends the following:

"It is continually becoming clearer that the enemy's surprise thrust, carried out by a tremendous array of forces, which had been in preparation for several months, will not succeed. The attack now has been brought to a standstill all along the line and the prospects of a further setback are being awaited with equanimity. The spirits of the men are excellent and their movements are being executed calmly and confidently."

SAYS GERMANS MOWED DOWN ENEMY SUPERIOR IN NUMBERS

The Hague, Holland, Oct. 1.—The Cologne Gazette declares the Germans on the western front are opposed by forces between four and five times as strong as their own.

"German machine guns and cannon," says this newspaper, "mowed down the enemy, but despite the mountains of bodies the French columns continued to advance. Enemy troops appeared provided with rations for eight to ten days, apparently counted on marching through Luxembourg and Belgium immediately. The offensive on this front has as far resulted in a complete defeat for the enemy."

Despite the fate of those mowed down by German machine guns at barbed wire entanglements, the British repeatedly sent further troops to the attack.

SORWEGIAN VESSEL IS SEIZED BY GERMAN SUBMARINE.

Copenhagen, Denmark, Oct. 1.—The Norwegian bark Actie, 543 tons gross, with a cargo from Krageroe to Leth, was set on fire Thursday night by a German submarine at a point 26 miles south of Naar, at the southern extremity of Norway. The Actie crew of 11 was rescued.

SERBIA OFFERS LAND FOR THE AID OF GREECE

Rome, Italy, Oct. 1.—The Greek daily states that Serbia has offered Greece the districts of Gulevick and Dolan, in Macedonia, in exchange for participation in an expedition of the allies against Bulgaria.

25 MIDSHIPMEN ARE PUNISHED

Six Are Dismissed, Four Suspended, 15 Demoted Following Hazing Inquiry.

Washington, D. C., Oct. 1.—Dismissal of six midshipmen, suspension of four others for one year without pay and demotion to the next lowest class of 15 others, was announced by secretary Daniels today as the result of the recent hazing investigation at Annapolis naval academy.

Those dismissed are Robert S. Lamotte, first class; David Glick, second class, and Alexander P. Bolling, China B. Tuley, Edward H. Hill and Wright C. Cook of the third class. The sixty court which investigated the charges recommended the dismissal of nine.

Must Obey Orders.—Secretary Daniels issued the following statement:

"This action is taken with the determination that hazing of all kinds is to be ended at the naval academy. There is no room in the academy for any man who cannot obey the law of the United States congress. It has been estimated that it costs \$15,000 to educate a man for the navy. In the navy the first duty is to obey orders. If at the academy a man cannot obey the orders of the superintendent and an act of congress, he demonstrates that he lacks the first and essential quality required for a naval officer."

Dr. Newo Newi New of "New Thor" Is Charged With Fraud By Mail

San Francisco, Calif., Oct. 1.—Dr. Newo Newi New of the "New Thor" is charged with fraud by mail in the role of archbishop of the New Thor church and president of the New Thor university, was arrested today by federal officers charged with using the mails to defraud.

The new "archbishop" was presented with a bronze commemorative medal by Joseph M. Cummings, secretary to the president of the exposition, on August 28 in ceremonies that celebrated "National New Thor Science day" at the exposition.

ROCKEFELLER, JR., HAS PLAN FOR BENEFITING EMPLOYEES

Denver, Colo., Oct. 1.—With his industrial plan completed, John D. Rockefeller, Jr., today was preparing for a conference at Pueblo, Saturday, at which the project will be presented to the officers of the Colorado Fuel and Iron company, the superintendents of the mines and the grievance committee.

While Mr. Rockefeller maintained silence as to the provisions of his industrial plan, a statement the mine owner characterized his suggestion for settling the relations between labor and capital as "broader and more democratic than unionism," because it benefited all classes of workmen, whether belonging to unions or not.

TESTIMONY IS CONCLUDED IN FREIGHT RATE HEARING

Austin, Tex., Oct. 1.—Taking of testimony in the application of the railroad rates of the state for an advance in freight rates was concluded today. No date has been set for an advance in freight rates was concluded today. No date has been set for an advance in freight rates was concluded today.

POOL SUBMITS COUNTY POOR HOUSE BONDS FOR APPROVAL

Austin, Tex., Oct. 1.—Judge Adrian Pool, county judge of El Paso county, was here today and presented to the attorney general's department for approval an issue of \$100,000 El Paso county poor house and poor farm bonds, bearing 5 percent and maturing in 20 years, with an option of 10 years.

ASKS TAX COLLECTORS TO HELP PREVENT A DEFICIT

Austin, Tex., Oct. 1.—In order to avert a deficit in the collection of taxes, controller H. B. Terrell today addressed letters to the 24 tax collectors in Texas, urging upon them to collect taxes promptly.

Collection of 1915 taxes began today throughout the state and the collectors are urged to cooperate with the state officials to prevent a deficiency in the general revenue, and also in the other funds.

HALL ENTERS RACE FOR CRIMINAL APPEALS BENCH

Austin, Tex., Oct. 1.—Judge R. W. Hall, associate justice of the eighth court of civil appeals at Amarillo, reached here today and announced that he would be a candidate for associate justice of the court of criminal appeals. He proposes to make the race against associate justice A. J. Harper. The latter is also to stand for reelection. Judge Hall is well known throughout the state.

SUPREME COURT MAY RECEIVE APPEAL

Government Wins Important Anti-Trust Victory In United States Court.

ALLEGATION OF MONOPOLY UPHELD

Court Rules That Motion Picture Combine Went Beyond Its Rights.

PHILADELPHIA, Pa., Oct. 1.—The United States government won a sweeping victory in one of its important anti-trust cases today when Judge Oliver B. Dickinson in the United States district court here handed down an opinion dissolving the alleged moving picture trust on the ground that it was violating the Sherman law regulating interstate and foreign commerce.

The decision was rendered against the Motion Picture Patents company, the General Film company, and many other concerns and individuals manufacturing motion pictures and accessories or controlling the rights of their manufacture. Many millions of dollars are involved.

May Carry Case Higher.—The court made no suggestion as to how the alleged combination is to be dissolved, but requested that a decree be entered to protect patent rights, and that the case will be taken to the supreme court.

Claims Defendants Exceeded Rights.—The defendants, in their argument, laid stress upon the right of these holding patents to do with their property what they thought best, but the court, in its opinion declared that the granting of a patent does not confer a license to do that which the law condemns. The court found that the defendants went far beyond what was necessary to protect patent rights, and that their acts constituted a violation of the anti-trust law.

Alleged Monopoly Formed in 1908.—It was charged by the government that the alleged monopoly was formed in 1908 by virtually all the manufacturers of moving picture films in the country. It was alleged that the Motion Picture Patents company was made the holding concern of nearly all the patents in the industry.

Controlled Film Exchange.—A list of theaters and moving picture plays was prepared and no film exchange, it was alleged, was allowed to distribute to protect patent rights, except those named on the list. Uniform prices and rules were made, it was further alleged, and if the film exchanges did not observe the orders of the so-called trust, their supply was cut off.

Suit Filed in 1912.—The suit was filed August 15, 1912, and was argued in court in December, 1914. The suit was conducted for the government by Edwin P. Grosvenor, special assistant to the attorney general.

"Independents" Are Elated.—Los Angeles, Calif., Oct. 1.—Hordes of independent motion picture companies here were elated today by the news that the United States district court at Philadelphia had rendered a decision adverse to the Motion Picture Patents company, familiarly known in filmdom as "the trust." The effect of the decision, it was said, would be to open for the first time a free market to producers of picture plays.

The Motion Picture Patents company and its selling agency, the Independent Film company, are represented here by five producing concerns, operating scores of separate companies, and the "independents" by four central organizations, with large staffs of actors, directors and technicians.

Officials of the Universal Film company said today that the trust companies, which included a number of European concerns, owned various cameras and projecting devices, patents on which enabled them to control the markets for film productions today.

Patent Control Ended.—The Motion Picture Patents company said today that the trust companies, which included a number of European concerns, owned various cameras and projecting devices, patents on which enabled them to control the markets for film productions today.

Officials Get Stalled In River; Forced To Swim Out

Austin, Tex., Oct. 1.—An involuntary midnight bath in San Gabriel river was the experience of a party of officials from the state house who went overland to attend the funeral of the mother of governor Ferguson, in the party were Chief game warden Harry Bailey, Capt. B. H. Smith, of the state ranger; Andy Byas, inspector in fee paid department and R. A. Cox, an attorney of the secretary of state's department.

They were en route home when they strayed from the road, and attempted to take a short cut home, and in doing so it became necessary to ford the stream. The car declined to ford the water, and the engine "went dead."

This necessitated the occupants of the car getting out into the water to swim ashore. The car was finally pulled out.

The much talked of Austro-German attack on Serbia, to force a way through to Constantinople, seems to have begun. Teuton artillery is said to be bombarding Belgrade and Semendria and, according to reports from several sources, the advance will be south from Semendria and then west into Bulgaria, where the Bulgarian troops have already mobilized. The shaded squares in the map represent Bulgarian troops, while the black squares represent Austrians and Germans. Bulgaria's lot seems to have been thrown in with the central powers.

Many are eager to join in loan to join in loan

Flood of Applications Pouring In Makes Estimated Total of \$450,000,000.

New York, Oct. 1.—Members of the big syndicate of banks, trust companies and private banking houses which will manage the \$500,000,000 bond issue negotiated here by the Anglo-French loan commission had received today a flood of applications from banks and individuals for permission to participate in underwriting the loan. Although the subscription books have not yet been opened, the total subscriptions already offered are estimated as amounting to as high as \$150,000,000.

Sir Edward Holden, one of the members of the Anglo-French commission, was quoted today as saying that in his opinion the loan was so superior in interest to anything in London that he expects a large amount of it will find its way to that city. "Both English and French investors already are making extensive applications for it," said Sir Edward.

French Comment Favorably.—Paris, France, Oct. 1.—The Temps commented today on the loan in Great Britain and France says:

"The conditions of the loan are as favorable as circumstances permit. They show the solidarity of French and English credit and the confidence of America in ultimate victory of the allies."

The Washington administration wishes to remain at peace. The American nation does not want war; it fails to see what role it could play in the world conflict in its present state of military preparations, but it knows its importance as an economic force and as a naval influence.

U. S. COULD INVENT GAS MORE DEADLY THAN GERMAN

San Francisco, Calif., Oct. 1.—If the United States were involved in war, it would hardly use chlorine gas, now used by the Germans for chlorine gas, said Dr. A. H. Elliott of Flushing, N. Y., at the closing session Thursday of the International Congress.

He said that in case of war the United States could use gases a thousand times more deadly than chlorine. For instance, arsenic hydride and hydrocyanic acid can be made into a gas which would exterminate large bodies of men almost instantaneously.

The use of chlorine could also be made to play an important part in war. The country, however, can well rely on Mr. Edison and the scientists of civilian inventors to produce in an emergency terrible engines of war that would enable the United States to hold a fair hand with any enemy that might invade our shores.

ATTACHE IS NOT LIKE D BY U.S.

Washington May Ask His Recall Unless Germany Takes First Action.

CIPHER MESSAGES FROM HIM FOUND

"Idiotic Yankees" Phrase Is Also Being Considered By State Department.

WASHINGTON, D. C., Oct. 1.—Unless Capt. von Pappen, the German military attaché, is voluntarily recalled today, the State Department today would request his recall.

Capt. von Pappen, who is now returning eastward after a visit to the Panama-Pacific exposition at San Francisco, has given out a statement that his reference to "idiotic Yankees" was not meant to be applied to Americans generally but to a certain American newspaper which has a long-standing hostility to Germany.

May Go to Mexico.—It was reported several days ago that Capt. von Pappen was about to go to Mexico, to which country he also is accredited as military attaché.

Several months ago the attaché was named as being implicated in efforts to secure an American passport for a German who was to proceed to England on spy service for Germany. No definite relation between the German and Capt. von Pappen could be established.

Diplomatic Privileges Violated.—All the papers carried by Archibald, the American correspondent involved in the case of Dr. Ducloux, have now been placed before state department officials and while final decision will await the return of secretary of state Lansing, it became known today that the documents disclosed a transgression of diplomatic privileges on von Pappen's part, such as caused the recall of the Austrian minister.

Cipher Messages Found.—In the list of documents now in possession of the state department are four cipher letters from Dr. Dumba, some from Capt. von Pappen, and one it is believed, from Count von Bernstorff, although on the latter point official confirmation was lacking. There is nothing as far as officials would disclose, which indicated that the German ambassador had violated diplomatic privileges.

British Cease Forward Rush

Berlin, Germany, Oct. 1.—(By wireless to Tuckerton, N. J.)—The British have ceased their attacks and the Germans have made further progress north of Lens, the war office announced today.

All French attacks east of Soissons, north of Neuville and in Champagne failed.

The German war office announced today that during September there were captured on the Russian front about 34,000 men, 37 cannon and 125 machine guns.

Gallieni Used 5000 Paris Taxicabs When City Was Threatened

Paris, France, Oct. 1.—The part played by Gen. J. S. Gallieni, military governor of Paris, in the critical events of September, 1914, when the Germans were approaching this city, won him recognition from the way of citation in the army orders published in the Official Journal today. Gen. Gallieni used 5000 Paris taxicabs to convey 20,000 soldiers to the Marne battlefield at the critical moment when the battle was beginning.

SILLIMAN IS RECALLED TO U. S. FROM MEXICO

Vermont, Oct. 1.—John R. Silliman, personal representative of president Wilson at Veracruz, has been recalled to Washington. He made a farewell visit to Gen. Carranza Thursday.

It is believed Silliman is recalled in connection with the Pan-American conference. He will take with him copies of all his reports and the notes he has taken concerning the Carranza government and conditions in Mexico.
